6. CARDING CRITERIA

The Athlete Assistance Program qualification criteria are as follows:

International Senior Criteria (SR1/SR2)

Athletes must meet the following criteria to be eligible for SR1/SR2 cards:

- Finish in the top 8 and in top ½ of the field either in the Olympic Games or the FIS Alpine World Ski Championships. A maximum of 3 entries per nation will count toward this result.
- In the Alpine Team Event, the athlete must compete in the event to be eligible for nomination*

Athletes who meet the international criteria are eligible to be nominated for two consecutive years; the card for the first year is referred to as an SR1 card, while the second-year card is known as an SR2. The second year of carding is contingent on the athlete being re-nominated by ACA and maintaining a training and competitive program approved by ACA.

For the purpose of creating a priority listing of candidates for 2023-24 season, athletes meeting SR1 criteria will be ranked in order of their best result from the 2022 Olympic Winter Games; athletes meeting SR2 criteria will be ranked in order of their best result from the 2023 World Ski Championships.

Senior National Carding Criteria (SR/C1)

The criteria for Senior national cards has been designed to identify athletes with the potential to achieve the international criteria. Athletes nominated for Senior cards for the first time are awarded C1 cards.

Athletes will be prioritized in order based on their best ranking on the WCSL. If two athletes are equal based on the WCSL, each athlete's best World Rankings from the first FIS list will be used to break the tie.

Athletes who were born from 1997 through 2005 without WCSL ranking can qualify for an SR/C1 card based on their best World Ranking from the FIS list, provided that they have at least one ranking in the top-100 in DH, SG, GS, or SL. These athletes will be listed after those who meet the criteria based on their WCSL ranking, and they will be prioritized in order based on their best ranking on the FIS list (First FIS list for the 2023/2024 season, which is published in July 2023).

Maximum number of years at Senior National Card Level

Normally, the maximum number of years an athlete may remain at the Senior National Card (SR/C1) status is five (5). Years carded at the SR injury, SR1, SR2 and when the athletes were still FIS junior age will not count toward this maximum.

In order to be nominated for carding for 6 or more years the athlete must demonstrate improvement toward International Senior Card status (SR1 and SR2) and be recommended by ACA. Proof of progression will be determined by the Alpine, Athletic Director with input from the CAST Alpine Staff, taking into consideration the athlete's on-snow results, fitness testing and evaluation of the athlete's commitment to reaching International Senior Card status.

Development Carding Criteria (D)

Development cards are intended to support the developmental needs of younger athletes (U21) who clearly demonstrate the potential to achieve the Senior Card International Criteria but are not yet able to meet the Senior Card criteria.

U21 (athletes born 2004 through 2008) Criteria is top 20 World Age Rank or better. The maximum age for a Development Card is 24 years of age (athlete's born between 2000-2003) Criteria is top 150 World Rank.

Normally, an athlete previously carded at the Senior Card level (C1, SR, SR1, SR2) for more than two years cannot be nominated for a Development Card, except for an athlete carded as a Senior Card while still eligible to compete at the Junior international age level. However, in the event carding is still available after senior carding criteria and U21 D carding criteria is applied. D cards can be used for athletes born between 2000-2003 which meet criteria listed above.

Athletes whose best World Age Ranking is 20th or better will be ranked according to that ranking. Ties will be broken with the best World Ranking (in any discipline).

World Age Ranking from the first FIS list 2023/2024 season. If equal on World Age Ranking, athletes will be prioritized in order of their best World Ranking. In order to break ties within World Rank the best next rank in any discipline will be used. For the purpose of creating a priority listing, cards will be allocated equally by gender to eligible athletes, the athlete with the best World Age Ranking within the top 20 of world age rank regardless of gender to be nominated first. In the situation where there is an odd number of cards available the best overall world age rank will take precedence over equality in gender.

The carding criteria starts with the first year an athlete becomes carded at the D level.

Maximum number of years at Development level

Normally, the maximum number of years an athlete may remain at the Development Card (D) status is four (4). Years carded at the D injury will not count toward this maximum. In order to be carded for more

years (5) the athlete must demonstrate improvement toward Senior Card status and be recommended by ACA. Proof of progression will be determined by the Alpine, Athletic Director with input from the CAST Alpine Staff, taking into consideration the athlete's on-snow results, fitness testing and evaluation of the athlete's commitment to reaching International Senior Card status.
