

Prince George Ski Club – FIS Coach– Job Description

The Prince George Ski Club is inviting applications for a FIS Coach for the 2020-21 season.

Based in Prince George, the Prince George Ski Club is a small, well established U8 to U19 ski club in North Central BC. Over the years, the Prince George ski club has a history of producing successful racers supported by a dedicated base of families and volunteers. Prince George was host community of the 2015 Canada Winter Games, which has resulted in significant equipment and facility legacies for our Club, including a first-class training run and race centre at Purden Mountain. In the 2018-19 season, our Club hosted U14 Provincials, and in 2019-20 our club hosted the FIS Teck Open Finals.

With Purden Mountain as our home venue, we also have the opportunity to travel to nearby mountains such as Troll, located outside Quesnel to the south of Prince George; and Powder King north of Prince George, known for its legendary powder skiing. In the evening, snowmaking has allowed for night skiing inside the City limits at the Hart Highlands Winter Club, where our athletes train two nights per week.

As the FIS Coach, the successful applicant will be expected to work full-time from early November to mid April, with the opportunity to start part-time in early October to facilitate dryland training. The ideal candidate is an enthusiastic, team player, committed to creating environments that promote skill and athletic development. Good organizational skills, combined with good parent/athlete communication skills are required. A desire for professional development is necessary, as is a passion for bringing out the best in the athletes.

Responsibilities include:

- Preparation of a yearly training plan, in collaboration with the Program Director, for FIS athletes, including a schedule of races, on and off snow training;
- regular parent and athlete communication;
- implementation of an age appropriate dryland training program ;
- on-snow coaching, including setting and maintaining training environments according to ACA and LTAD guidelines. Typically weekends, holidays/non-instructional days, two midweek evenings, and other training opportunities.
- ensuring on-snow athlete safety, working with hill management and other club coaches to ensure space is shared and used effectively;
- traveling with FIS athletes to camps and races;
- care and maintenance of club equipment (including dryland supplies, on-snow training tools, and club vehicles);
- athlete evaluations, including a review of skills and ability, equipment, and on and off snow training plans;
- ongoing coaching training and education; and
- assisting the Program Director(s) / Coach Team as and when required.

Qualifications:

- preference is for CSCF Development Level
- eligible for Class 4 drivers license; and
- ski racing experience, FIS level preferred.

Relocation assistance is available.

Interested applicants should submit their resumes and cover letters to:

Eduard Hausot
